InXpress App Setup for Ecwid

Installation (this will be more in depth once app is published)

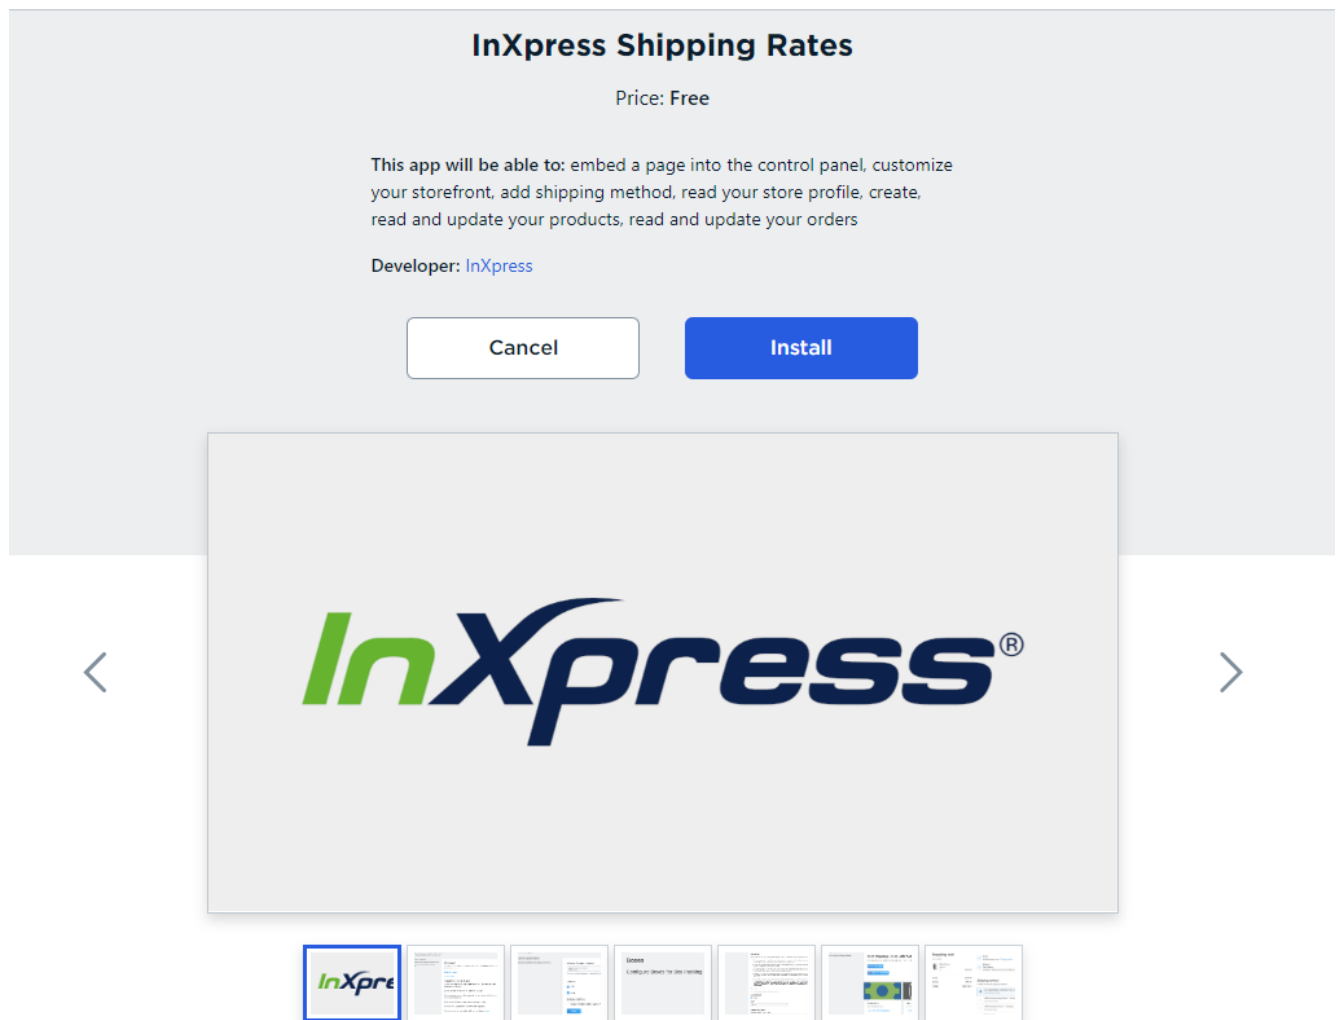

1. Navigate to inxpressapps.com -> Select Get the App

2. It will prompt you to log into the ecwid store you would like to install the live rating application on. Once logged in select Install.

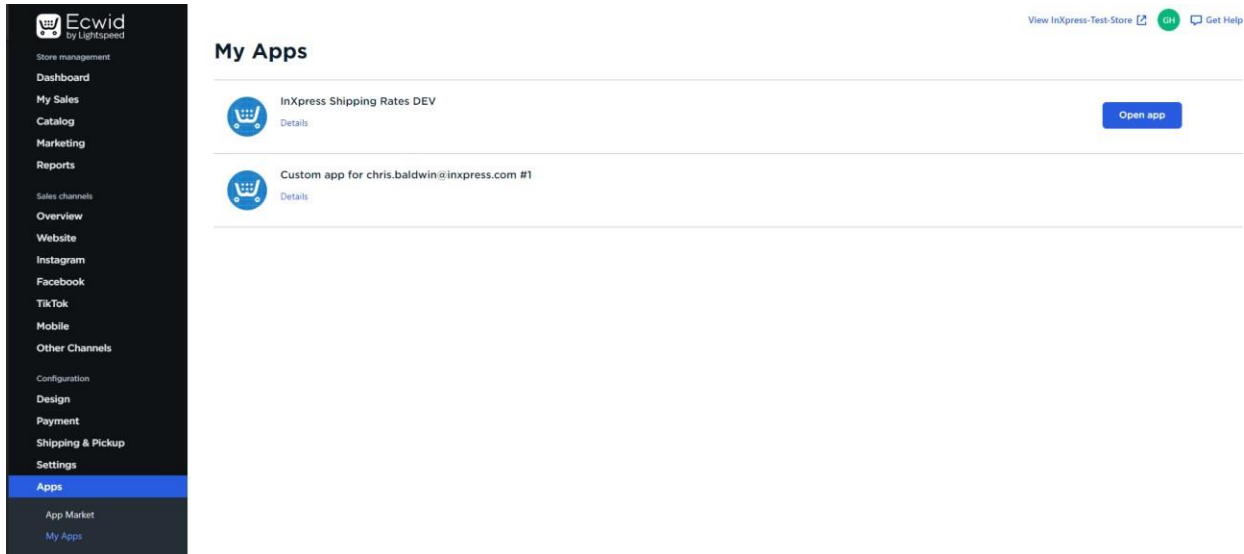

3. Select Install once again. It will confirm the installation and bring you to the InXpress App where you can begin your setup!

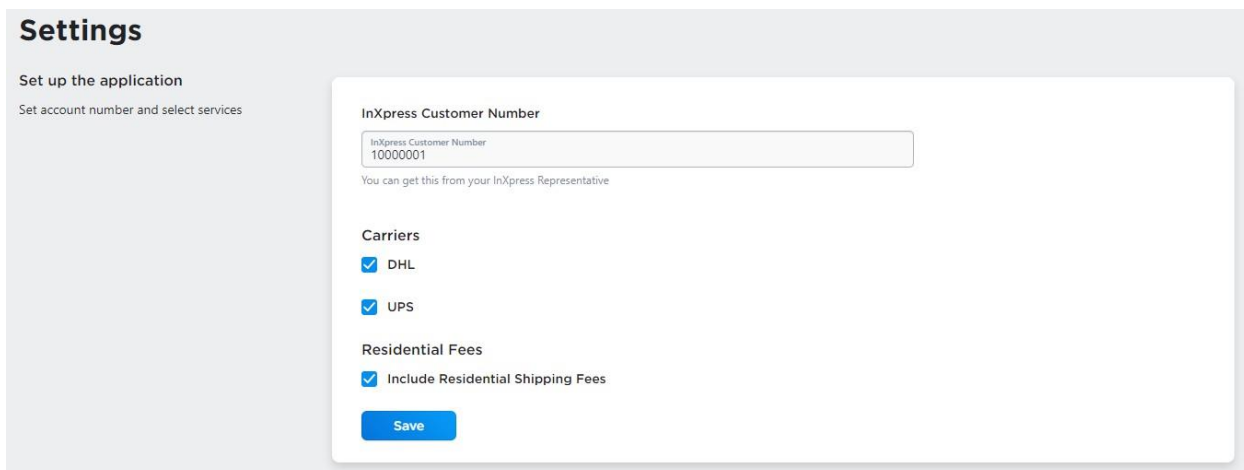

4. Your InXpress representative will notify you once your accounts have been received, and the app has been activated. The customer number will automatically be filled in when the app is activated.

Adding Shipping Rates

1. Navigate to Apps -> My App

2. Select Open App for "InXpress Shipping Rates DEV"
3. Scroll down to the "Setup the application" section. Enter in your InXpress Customer Number provided by your InXpress Representative.
4. Select the carriers you would like to enable.
5. If you would like to quote the Residential surcharge for all carriers, select the Residential fee checkbox.

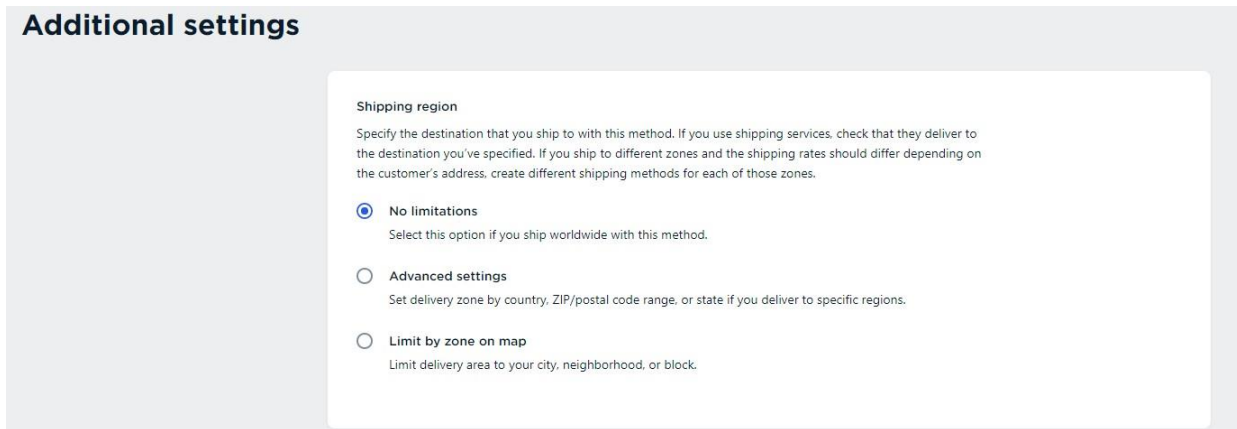

6. Select Save once all settings are set.

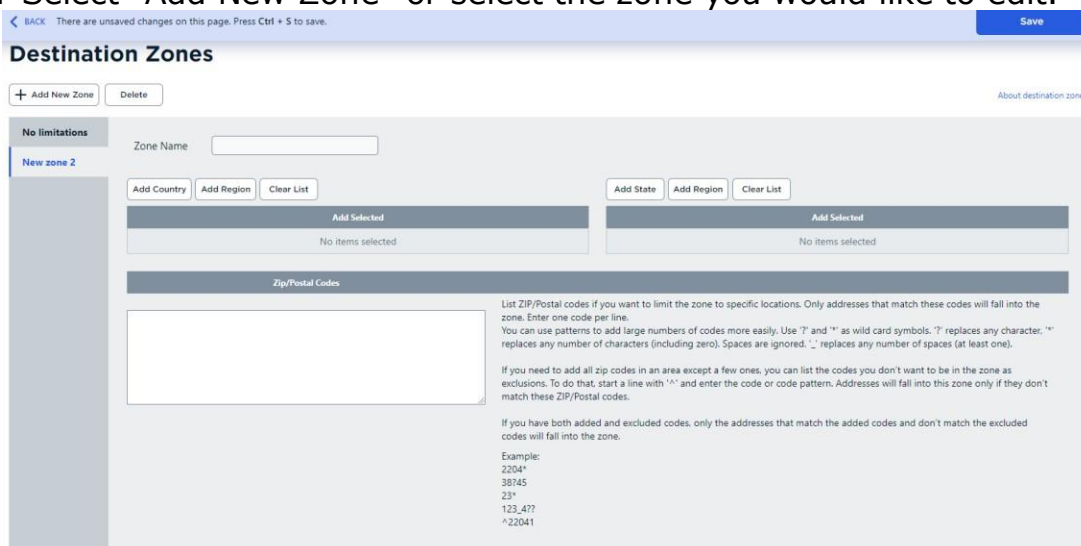

Add Shipping Zones

1. Scroll to Additional Settings
2. Select Advanced Settings -> Create Zone

If you are wanting to edit a zone, select edit zone.

3. You will need to create an all-encompassing zone for all carriers. For a store that only wants to ship domestic shipments, create a zone with just Canada or US (depending on origin). For a store that only ships internationally, create a zone with all international countries you'd like to ship to. For a store that only ships Domestic and International, create a zone with all Domestic and International countries.
4. Select "Add New Zone" or select the zone you would like to edit.

5. Set the Zone Name and select the Country/Region for your store.
6. Once all information is set, hit save or Ctrl + S.
7. Select Back and then scroll back down to the additional settings section. Selected Advanced Setting. Select the Zone you have created.
8. Select Save at the top right.

< BACK There are unsaved changes on this page. Press Ctrl + S to save. Save

Shipping region
Specify the destination that you ship to with this method. If you use shipping services, check that they deliver to the destination you've specified. If you ship to different zones and the shipping rates should differ depending on the customer's address, create different shipping methods for each of those zones.

No limitations
Select this option if you ship worldwide with this method.

Advanced settings
Set delivery zone by country, ZIP/postal code range, or state if you deliver to specific regions.

North America

Limit by zone on map
Limit delivery area to your city, neighborhood, or block.

Box Packing

Please refer to the Products and Box Packing setup guide for more information. Your InXpress Representative can provide you with more information.

Landed Cost Setup

Please refer to the Landed Cost Setup for Ecwid guide for more information. Your InXpress Representative can provide you with more information.
