InXpress Extension Setup for Magento

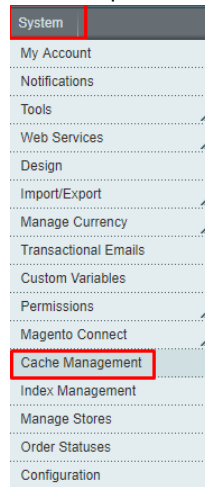

Installation

- Login to the InXpress app page for Magento:
<https://www.inxpressapps.com/magento.html>
- Click on the “Get the Extension” green button.

- This will download a zip file containing the extension.
- You will need to manually install the extension in your Magento store. If you are unfamiliar with this step, please follow the steps below:
 - Install Magento Extension: Upload via FTP
 - Upon downloading your selected extension, you will get a zip file. Unzip the file and upload the extension into the root directory of your Magento store.
 - **Note:** This will not override the files in your root directory. It will just add the new files and folders to the existing directories. After following any of the methods to install Magento extension, you need to refresh the cache of your store.

- Go to **System** → **Cache Management** from the top bar of your store's admin panel.

- Select **Refresh** from the Actions drop-down to clear it. Click on the **Submit** button:

- If you are already an InXpress customer, please notify your InXpress representative that you have installed the app and are ready to have your rates linked to the app. If you are not an InXpress customer, an InXpress representative will contact you to help you sign up and request your DHL account.
- Your InXpress representative will notify you once your DHL account has been received for new customers, and that your rates are ready. Your account number and InXpress account number will be used below to activate the app.

Register site with InXpress

- Click on Catalog -> "InXpress Shipping".

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

InXpress LSO

- In the case of DHL Express if your shipping from Canada you will need to change the gateway to "CA" based on your warehouse location.

The screenshot shows the 'Shipping Methods' configuration page for 'InXpress DHL Express'. The 'Gateway' dropdown menu is highlighted with a red box and set to 'CA'. Other settings include 'Enabled' (Yes), 'Title' (DHL Express), 'InXpress Customer number' (1234), 'Calculate Handling Fee' (Fixed), 'Handling Applied' (Per Order), 'Handling Fee' (empty), 'Ship to Applicable Countries' (All Allowed Countries), and 'Ship to Specific Countries' (list of countries). A 'Save Config' button is visible in the top right corner.

- You can also add or change the handling fee if you'd like.

The screenshot shows the 'Shipping Methods' configuration page for 'InXpress DHL Express'. The 'Handling Fee' input field is highlighted with a red box. Other settings include 'Enabled' (Yes), 'Title' (DHL Express), 'InXpress Customer number' (1234), 'Gateway' (CA), 'Calculate Handling Fee' (Fixed), 'Handling Applied' (Per Order), 'Ship to Applicable Countries' (All Allowed Countries), and 'Ship to Specific Countries' (list of countries). A 'Save Config' button is visible in the top right corner.

- Click the "Save config" button to save the settings, and the selected service is now enabled to quote in the shopping cart.
