What is Live Rating?

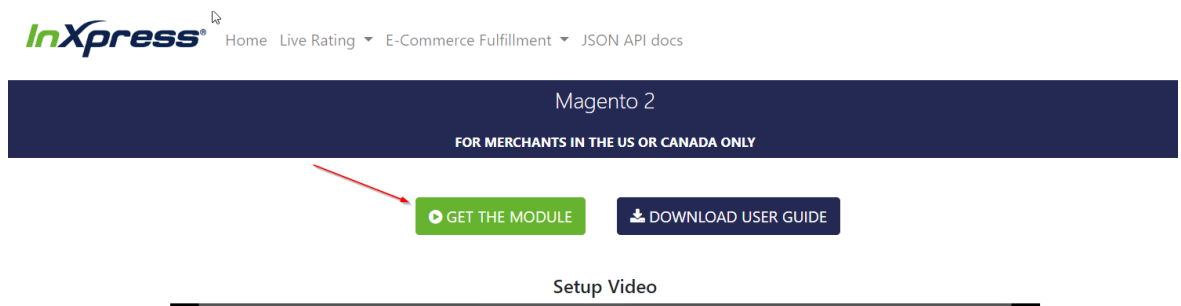

Integrated Live Rating is the ability to display your InXpress discounted shipping rates in your eCommerce platform's cart. This will provide customers with accurate shipping rates when deciding between different shipping options.

Shopify Application Installation.

1. Go to the InXpress app page for Magento 2:

[InXpress for Magento 2 - Add Discounted Int'l Shipping to Your Store \(inxpressapps.com\)](https://inxpressapps.com)

2. Click on the Get the Module button.

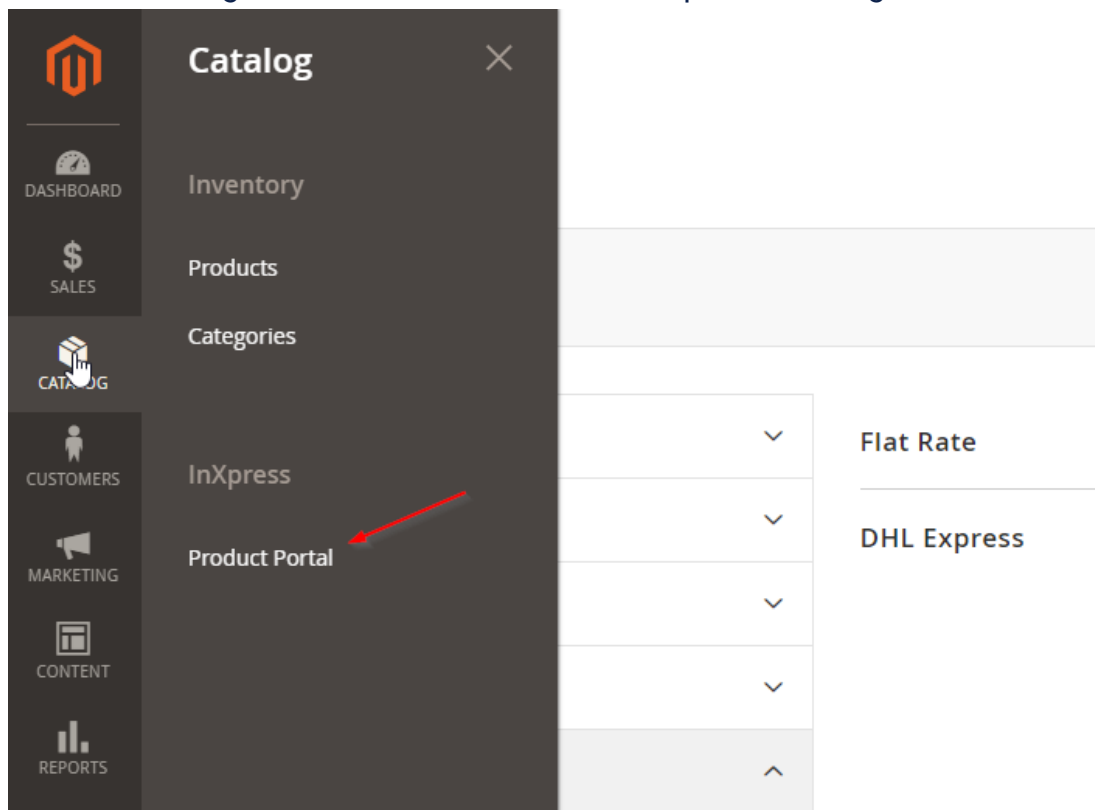

3. This will take you to the page on the packagist.org that hosts the module.
4. Before installing the module make sure you have the store information and the Origin set in your configuration.
 - a. Stores -> Configuration -> General -> General -> Store Information
 - b. Stores -> Configuration -> Sales -> Shipping Settings -> Origin
5. You will need to install the module composer. The composer command is on the packagist.org page:
 - a. Composer require inxpressapps/magento2
6. Run the command in the Magento 2 directory on your host server.
7. Enable the module:
 - a. Bin/magento module:enable InXpress_InXpressRating
 - b. Bin/magento setup:upgrade

- c. Bin/magento setup:di:compile
 - d. Bin/magento cache:clean
8. The extension should now be visible under Sales > Shipping Methods > DHL Express OR Sales > Delivery Methods > DHL Express depending on your version of Magento 2.
 9. If you are an existing InXpress customer, please notify your InXpress representative you have installed the app and are ready to have it activated. If you are not an InXpress customer, an InXpress representative will contact you to sign up and request your carrier accounts.

Products Setup.

If you need to receive rates based off of dim weight, you will need to fill in this section for your products. If you are going to receive rates off of actual weight, you can utilize your products set in your Magento 2 Store.

- Export your products out of your Magento 2 store.
- Select the Products tab.
- Select the download option to export a csv file with the required columns for importing in your products.
