3. <u>Dimensional Weight</u> .....	11
4. <u>Frontend Section</u> .....	18

## How to Install

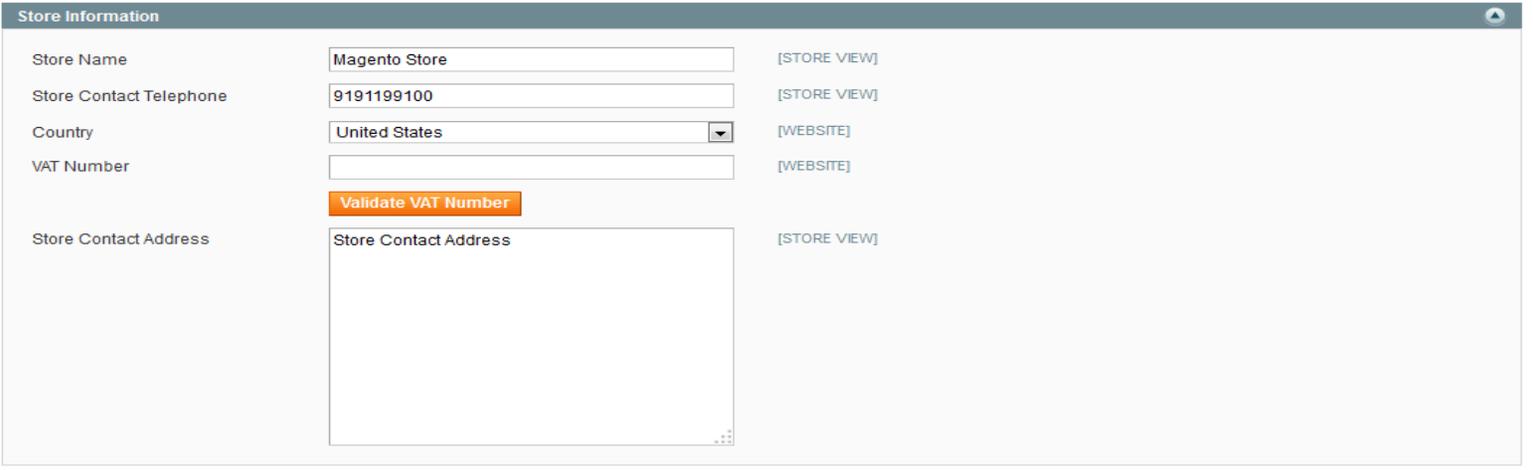

### Step 1: Download “DHL Discounted Shipping by InXpress”

Download the latest package from Magento Extensions Market

### Step 2: Settings before Installation

You will need to change some settings in the Magento Configuration section before the installation of the extension. Most merchants have already done these settings, but if you haven't, please do so now as they are important for the module installation and activation.

1. Go to System->Configuration. Click on the Tab General->General, open the section “Store Information”, fill in all the fields and save configuration.

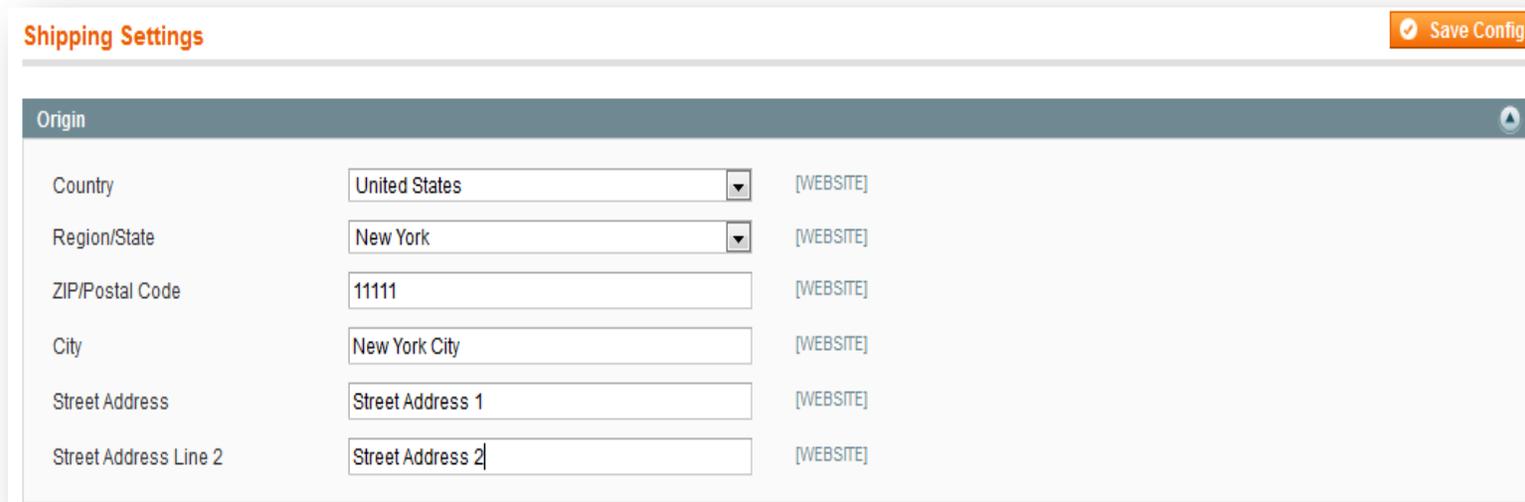

The screenshot shows the 'Store Information' configuration page in Magento. It contains the following fields and options:

Store Name	<input type="text" value="Magento Store"/>	[STORE VIEW]
Store Contact Telephone	<input type="text" value="9191199100"/>	[STORE VIEW]
Country	<input type="text" value="United States"/>	[WEBSITE]
VAT Number	<input type="text"/>	[WEBSITE]
	<input type="button" value="Validate VAT Number"/>	
Store Contact Address	<input type="text" value="Store Contact Address"/>	[STORE VIEW]

2. Finally, click on the tab “Sales->Shipping Settings”, fill in the section “Origin” and save.

After these settings are done, proceed to the installation of the Extension.

The screenshot shows the 'Shipping Settings' configuration page in Magento. The 'Origin' section is highlighted with a dark header. It contains several input fields for defining the shipping origin, each with a '[WEBSITE]' label to its right. The fields are: Country (dropdown menu set to 'United States'), Region/State (dropdown menu set to 'New York'), ZIP/Postal Code (text input with '11111'), City (text input with 'New York City'), Street Address (text input with 'Street Address 1'), and Street Address Line 2 (text input with 'Street Address 2'). A 'Save Config' button is located in the top right corner of the settings area.

Origin		
Country	United States	[WEBSITE]
Region/State	New York	[WEBSITE]
ZIP/Postal Code	11111	[WEBSITE]
City	New York City	[WEBSITE]
Street Address	Street Address 1	[WEBSITE]
Street Address Line 2	Street Address 2	[WEBSITE]

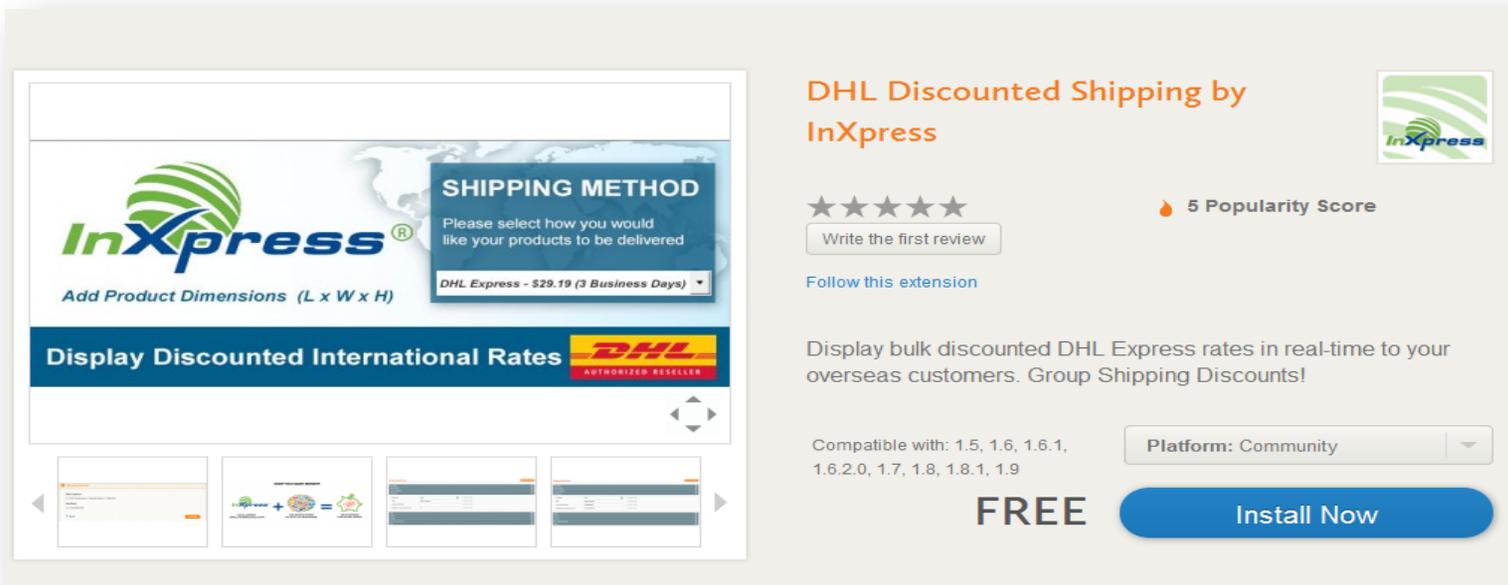

## Step 3: Installing “DHL Discounted Shipping by InXpress”

The easiest way to install the extension is by using “Magento connect”.

In the admin section go to “**System->Magento Connect->Magento Connect Manager**”, you will be prompted for your Magento’s admin user and password; log in.

Visit the InXpress extension page in the Magento Connect Extensions Marketplace (<http://www.magentocommerce.com/magento-connect/dhl-discounted-shipping-by-inxpress.html> ). Our extension can also be found under the “Integrations → Shipping/Fulfillment” category in the Magento Connect Extensions Marketplace.

Click on the **Install Now** Button

The screenshot shows the Magento Connect extension page for "DHL Discounted Shipping by InXpress". On the left, there is a preview of the extension's interface, which includes the InXpress logo, a "SHIPPING METHOD" section with a dropdown menu showing "DHL Express - \$29.19 (3 Business Days)", and a "Display Discounted International Rates" section with the DHL logo. Below the preview are four small thumbnail images showing different views of the extension's interface. On the right, the extension title "DHL Discounted Shipping by InXpress" is displayed in orange, along with the InXpress logo. Below the title, there are five stars and a "5 Popularity Score" with a flame icon. A "Write the first review" button is present. Below that is a "Follow this extension" link. The description reads: "Display bulk discounted DHL Express rates in real-time to your overseas customers. Group Shipping Discounts!". The compatibility information is "Compatible with: 1.5, 1.6, 1.6.1, 1.6.2.0, 1.7, 1.8, 1.8.1, 1.9". The platform is set to "Community". The price is "FREE" and there is a prominent blue "Install Now" button.

Next, check the box to agree to the extension license agreement. Then click “Get Extension Key”.

The screenshot shows the Magento Marketplace interface for the 'DHL Discounted Shipping by InXpress' extension. On the left, a large preview image displays the InXpress logo and a 'SHIPPING METHOD' selection box with 'DHL Express - \$29.19 (3 Business Days)' selected. Below this is a banner for 'Display Discounted International Rates' with the DHL logo. At the bottom of the preview are four smaller thumbnails showing different views of the extension's interface.

Now come back to Magento Connect Manager , paste the extension key and click Install. Magento Connect Manager verifies the extension key and gives you options to Cancel Installation or Proceed. Click Proceed and the InXpress extension will install.

The screenshot shows the Magento Connect Manager interface. At the top, there is a dark blue header with the text "Magentoconnect MANAGER". Below the header, there are two tabs: "Extensions" and "Settings". To the right of the tabs, there are two links: "Return to Admin" and "Log Out".

The main content area is divided into two sections. The first section is titled "Settings" and contains two options: a checked checkbox for "Put store on the maintenance mode while installing/upgrading/backup creation" and an unchecked checkbox for "Create Backup" with a dropdown menu showing "Database".

The second section is titled "Install New Extensions" and contains two numbered steps: "1 Search for modules via [Magento Connect](#)." and "2 Paste extension key to install:  [Install](#)".

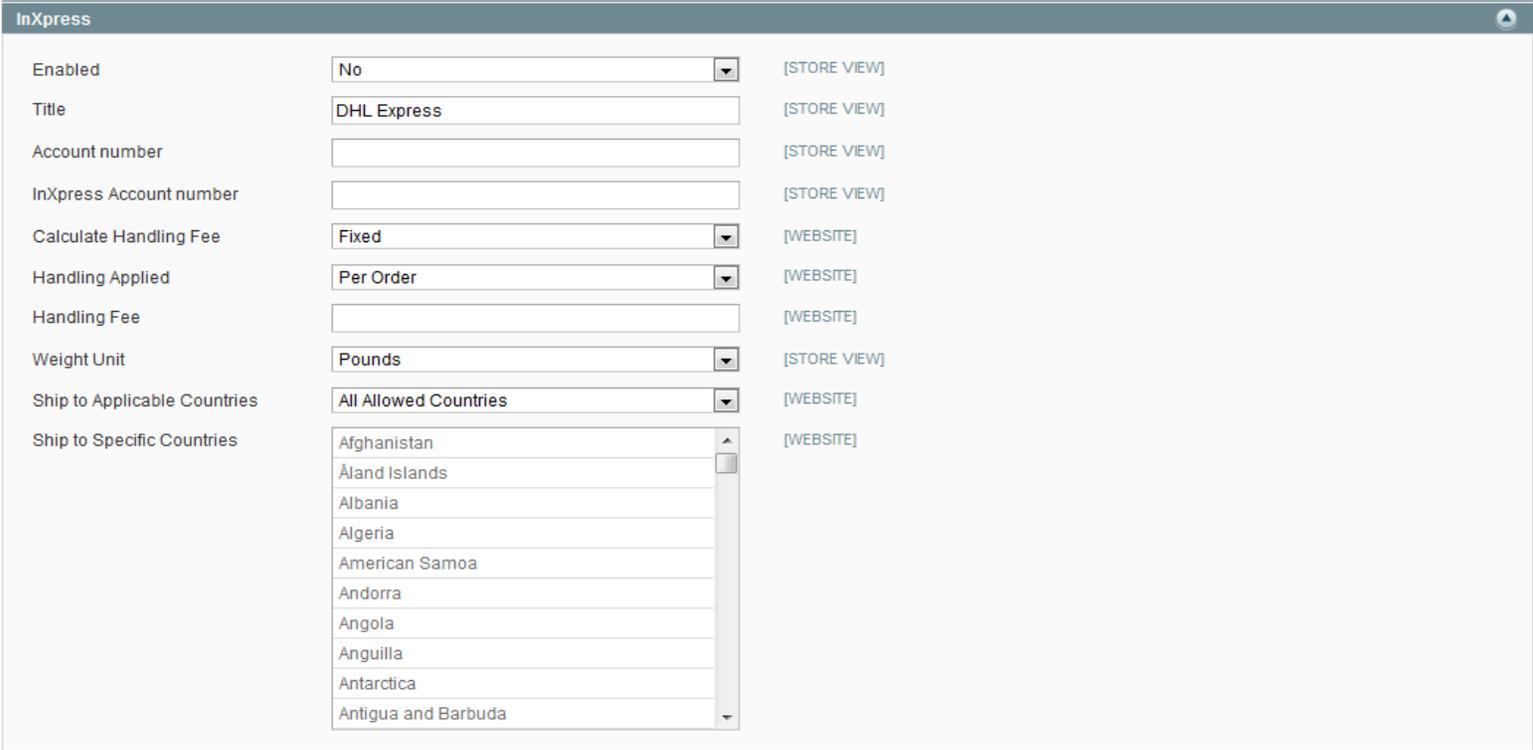

Below the steps, there is a section titled "Extension dependencies" which contains a table with the following data:

Channel	Package Name	Version	Status
community	InXpress	0.1.2 (stable)	Ready to install

At the bottom right of the interface, there are two buttons: "Cancel installation" and "Proceed".

## General Settings

In the Admin Panel go to “System->Configuration”. In the left tabs, click on the “Shipping Methods”. In the shipping methods section you will see one shipping method i.e. InXpress Shipping. You will see that the shipping method is disabled and the Account number and InXpress Account number fields are empty.

InXpress		
Enabled	No	[STORE VIEW]
Title	DHL Express	[STORE VIEW]
Account number		[STORE VIEW]
InXpress Account number		[STORE VIEW]
Calculate Handling Fee	Fixed	[WEBSITE]
Handling Applied	Per Order	[WEBSITE]
Handling Fee		[WEBSITE]
Weight Unit	Pounds	[STORE VIEW]
Ship to Applicable Countries	All Allowed Countries	[WEBSITE]
Ship to Specific Countries	Afghanistan Åland Islands Albania Algeria American Samoa Andorra Angola Anguilla Antarctica Antigua and Barbuda	[WEBSITE]

After successful installation you will receive an email from InXpress with an attached account application form for your DHL account. Complete the application and return it to InXpress. You will need a credit card to secure the DHL account.

Within 3 business days after submitting the application, you will receive your DHL Account and the **Extension will automatically activate**. In the shipping method section the InXpress Shipping will be enabled and will show the Account Number

Ship to Specific Countries	Afghanistan Åland Islands Albania Algeria American Samoa Andorra Angola Anguilla Antarctica Antigua and Barbuda	[WEBSITE]

## Dimensional Weight

### What is “Dimensional” Weight?

The dimensional weight (Dim Weight) or volumetric weight of a shipment is a calculation that reflects the density of a package. The dimensional weight is calculated and compared with the actual weight of the shipment to ascertain which is greater; the higher weight is used to calculate the shipment cost.

For calculating Dim Weight of a product you need to give the Length, Width and Height of the product. For this you can open the section **Catalog->Manage Variant**. Here you have to import csv, which will contain 4 columns, “sku, length, width, height”.

**Manage Variant** Import Csv

**Csv Import**
Import Csv

---

Price Update

CSV File \*  No file selected.

Here you can browse your CSV file and upload.

Your CSV file should look like the image below. If you have left dimension in any of the rows it will not be accepted. Only those rows where all the fields are filled are valid.

K14							
	A	B	C	D	E	F	
1	sku	length	width	height			
2	test1	21	11	30			
3	test2	11	12	20			
4	test3	10	13	10			
5	test4	31	14	5			
6							
7							
8							

Once you will import the CSV, the dimensions will be saved in the database. You can also edit the dimension of a product by clicking the particular row in the “Manage Variant” grid. When you click edit, a page will open where you can edit the dimensions, or select from the available box sizes.

Manage Variants

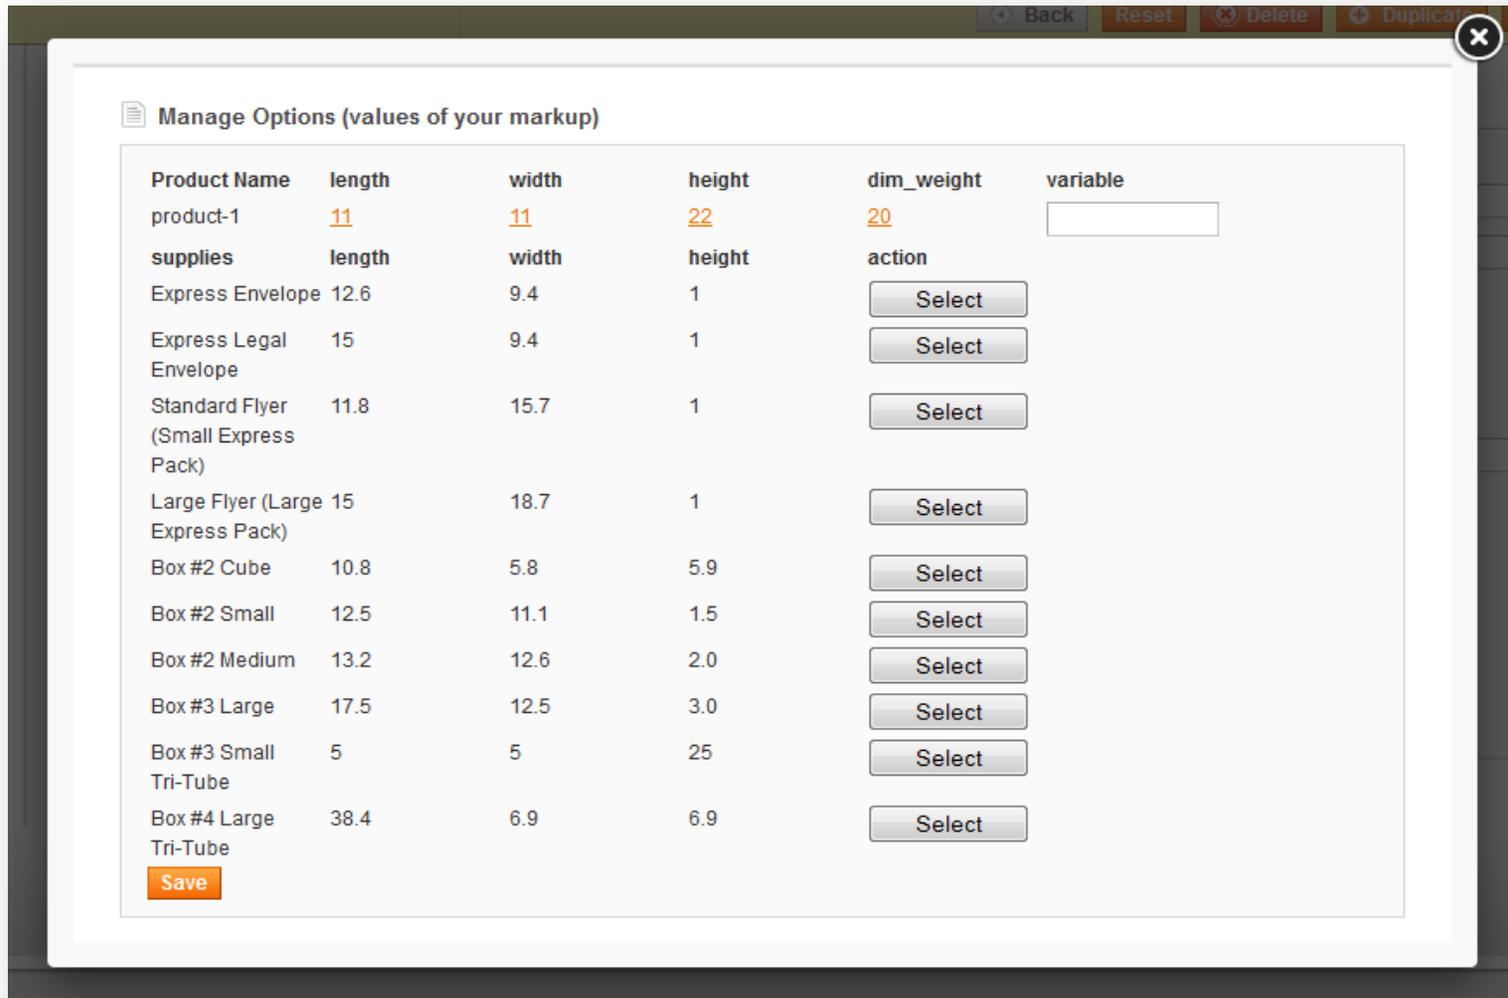

Variant	length	width	height	dim_weight	variable
product-1	11	11	22	20	<input type="text"/>
supplies	length	width	height	action	
Express Envelope	12.6	9.4	1	<input type="button" value="Select"/>	
Express Legal Envelope	15	9.4	1	<input type="button" value="Select"/>	
Small Padded Pouch	9.8	12	1	<input type="button" value="Select"/>	
Large Padded Pouch	11.9	14.8	1	<input type="button" value="Select"/>	
Standard Flyer (Small Express Pack)	11.8	15.7	1	<input type="button" value="Select"/>	
Large Flyer (Large Express Pack)	15	18.7	1	<input type="button" value="Select"/>	
Box #2 Cube	10.8	5.8	5.9	<input type="button" value="Select"/>	
Box #2 Small	12.5	11.1	1.5	<input type="button" value="Select"/>	
Box #2 Medium	13.2	12.6	2.0	<input type="button" value="Select"/>	
Box #3 Large	17.5	12.5	3.0	<input type="button" value="Select"/>	
Box #3 Small Tri-Tube	5	5	25	<input type="button" value="Select"/>	
Box #4 Large Tri-Tube	38.4	6.9	6.9	<input type="button" value="Select"/>	

In the above image you can see that there is a field called “Variable”. In this field you can enter values like 2 or 4 etc. This value will be used in the case, e.g. (value of 2) if a consumer orders a skateboard (15 x 10 x 13 box and weighs 7lbs (or 15lbs dimensionally), they can order up to two skateboards because 2 skateboards will fit into this box and not change the dimensional weight, so if they order two skateboards it will present a rate based on 1 box at 15lbs rather than 30lbs. With this option you can decide the quantity of a single product that will fit into a single box, keeping the shipping quote lower for the consumer.

You can also Add/Edit product dimensions from the product view page. Go to “**Catalog->Manage Products**” and open the product for which you want to Add/Edit the dimensions. You will find the variant section under the “General” tab.

Visibility *	<input type="text" value="Catalog, Search"/>														
Brands	<input type="text" value="Others"/>														
Country of Manufacture	<input type="text"/>														
Variant's	<table border="1"><thead><tr><th>Variant</th><th>length</th><th>width</th><th>height</th><th>dim_weight</th><th>variable</th><th>action</th></tr></thead><tbody><tr><td>product-1</td><td>11</td><td>11</td><td>22</td><td>20</td><td></td><td><a href="#">Add/Edit</a></td></tr></tbody></table>	Variant	length	width	height	dim_weight	variable	action	product-1	11	11	22	20		<a href="#">Add/Edit</a>
Variant	length	width	height	dim_weight	variable	action									
product-1	11	11	22	20		<a href="#">Add/Edit</a>									

When you click on the Add/Edit link, a Pop-up will open where you can Add/Edit the dimensions for that product, then click on the “Save” button to save the dimensions.

The screenshot shows a 'Manage Options (values of your markup)' pop-up window. It contains a table with columns for Product Name, length, width, height, dim\_weight, and variable. The first row shows 'product-1' with dimensions 11, 11, 22, and dim\_weight 20. Below this is a list of supplies with their respective dimensions and 'Select' buttons for each. A 'Save' button is located at the bottom left of the table area.

Product Name	length	width	height	dim_weight	variable
product-1	11	11	22	20	<input type="text"/>
supplies	length	width	height	action

InXpress's Dhl variant

supplies *	<input type="text" value="Express Envelope"/>
length *	<input type="text" value="12.6"/>
width *	<input type="text" value="9.4"/>
height *	<input type="text" value="1"/>

Here you have to fill all the fields and then save the box size. Once you save the box size then this size will be available to you while adding dimensions to the products.

## Frontend

Once your shipping module is activated it will be displayed on the frontend inside the shipping section in the checkout process.

The screenshot shows a checkout step titled "4 Shipping Method". It features two shipping options: "DHL Express" with a radio button and "DHL Express ( Transit Days: 2 ) \$35.01", and "Flat Rate" with a radio button and "Fixed \$5.00". At the bottom left is a blue "Back" link with an upward arrow, and at the bottom right is an orange "Continue" button.
